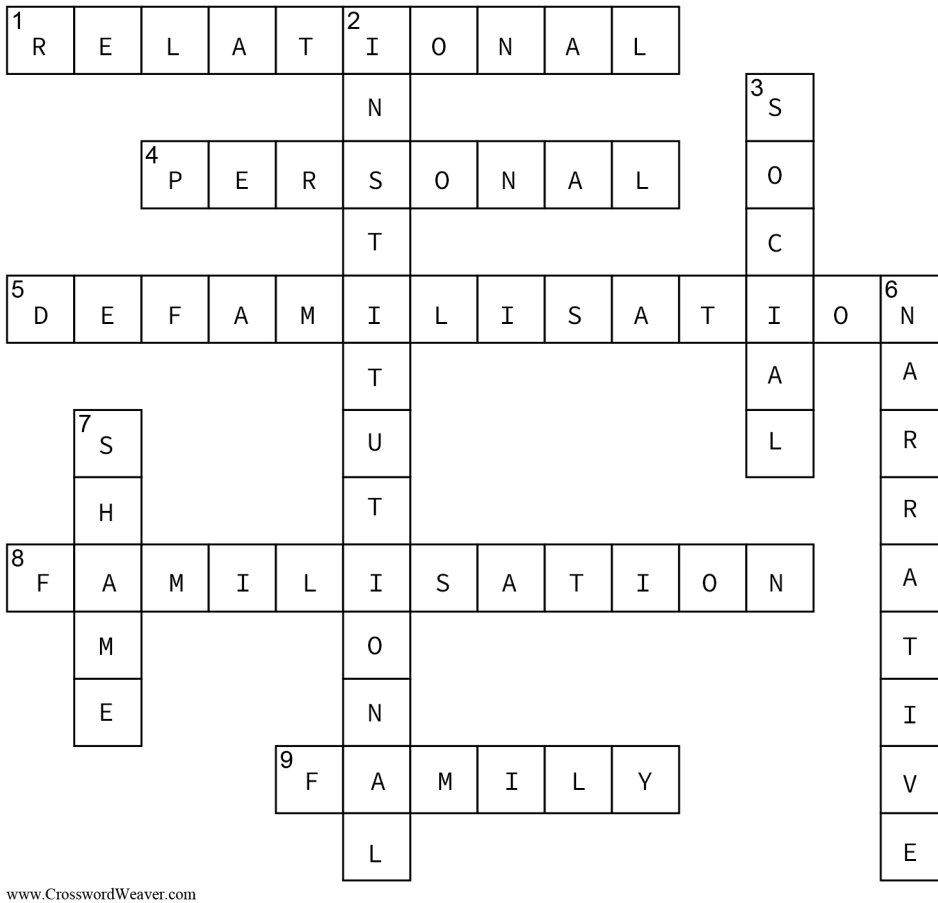
# Chapter Six



www.CrosswordWeaver.com

**ACROSS**

**1** A type of analysis which goes beyond families to consider other forms of friendships and social networks

**4** The term placed before stigma to illustrate individual experience

**5** Increased relocation of welfare provision away from the family and into the activities of the state

**8** A focus on the family as the traditional institution and welfare provider

**9** Often presented in a nuclear form but there is greater variety in society

**DOWN**

**2** The adjective provided before the word stigma to refer to the framing structures of policy and its delivery

**3** Stigma found within the attitudes, thoughts and actions of the majority of people in society

**6** Spoken and written expression presenting a perspective to justify welfare reforms

**7** A negative assessment of the self against the perceived expectations of others
