# Urban Studies & Planning

### **The essential guide to planning law** Decision-making and practice in the UK

**Adam Sheppard**, University of the West of England,  
**Deborah Peel**, University of Dundee, **Heather Ritchie**,  
University of Ulster and **Sophie Berry**, Newport City  
Council

Gives students essential background and contextual information to planning's statutory basis, supported by practical and applied discussion, enabling students with little or no planning law knowledge to engage in the subject and develop the necessary level of understanding required for both professionally accredited and non-accredited qualifications.

### **The human atlas of Europe** A continent united in diversity

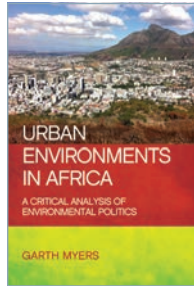

**Dimitris Ballas**, University of Sheffield, **Danny Dorling**,  
University of Oxford, and **Benjamin Hennig**, University  
of Sheffield

This is the first human geography social atlas of Europe to consider the European economy, culture, history and human and physical geography as a single land mass and a more unified European people. It provides an accessible overview of Europe and a human geography contribution to debates about a wide range of topics.

### Urban environments in Africa

A critical analysis of environmental politics

**Garth Myers**, Trinity College, Hartford, US

As Africa's urban population grows rapidly, this important book will mark a major new step forward in the study of Africa's urban environments. Using innovative research the book explores environmentalism from a variety of perspectives, acknowledging the clash between Western planning mind-sets focused on sustainable development and the lived realities of residents of often poor, informal settlements.

### Rethinking sustainable cities

Accessible, green and fair

Edited by **David Simon**, Mistra Urban Futures, Gothenburg, and Royal Holloway, University of London

Available Open Access under CC-BY-NC licence. This compact book is designed to make a signal contribution to the sustainable urbanisation agenda through authoritative interventions contextualising, assessing and explaining clearly the relevance and importance of three central characteristics of sustainable towns and cities everywhere, namely that they should be accessible, green and fair.

### People and places

A 21st-century atlas of the UK

**Danny Dorling**, University of Oxford and **Bethan Thomas**, University of Sheffield

This unique atlas, the third in a bestselling series, uses a wealth of up-to-the minute data sources alongside the last 2011 Census data to identify national and local trends and provide analysis and discussion of the implications of these for future policy.

### English planning in crisis

10 steps to a sustainable future

**Hugh Ellis** and **Kate Henderson**, Town and Country Planning Association

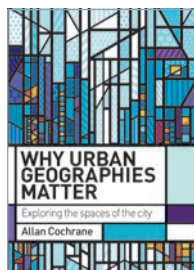

This book is a manifesto for a new planning system in England. Reflecting on controversial new Government reforms and deregulation, the authors draw on policy and practice examples from across the UK and internationally to set out 10 evidence-based steps to rebuild the English planning system and ignite a debate about the values that shape its future.

### Detroit and new urban repertoires

Imagining the co-operative city

**David Fasenfest**, Wayne State University

Using the 50 year history of the rise and fall of Detroit as a case study, this important book argues that cities can and must protect themselves from cycles of expansion and contraction driven by neoliberal market policies. The book is a valuable resource for academics and postgraduate students in urban planning, sociology, economics and political science courses.

### The Right to Buy? Selling off public and social housing

Alan Murie, University of Birmingham

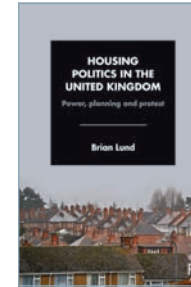

Alan Murie provides an authoritative account of the origins, development and impact of the Right to Buy policy across the UK and proposals for its extension in England. Presenting up-to-date statistical material the book engages with debates about transfers to private renting, the impact on public expenditure and on the current housing situation, addresses the proposals for new legislation and details the potential impact of these.

### Housing politics in the United Kingdom Power, planning and protest

Brian Lund, Manchester Metropolitan University

Using insights from public choice theory, the new institutionalism and social constructionism, *Housing politics in the United Kingdom* locates the contemporary 'housing question' in historically entrenched power relationships involving markets, planning, and territorial electoral politics. Written to complement the 3rd edition of the author's bestselling *Understanding housing policy*, publishing in 2017.

### Justice and fairness in the city A multi-disciplinary approach to 'ordinary' cities

Edited by **Simin Davoudi** and **Derek Bell**, Newcastle University

This book examines the theory and practice of justice in and of the city through a multi-disciplinary collaboration, which draws on a wide range of expertise. It will be a valuable resource for academic researchers and students across a range of disciplines including urban and environmental studies, geography, planning, education, ethics and politics.

### Locating localism Statecraft, citizenship and democracy

Jane Wills, Queen Mary University of London

Combining political theory with attention to political practice, this book explores the development of localism as a new mode of statecraft and its implications for the practice of citizenship. It looks at the development of community organising, neighbourhood planning and community councils that identify and nurture the energies, talents and creativity of the population to solve their own problems and improve our world.

### Why Detroit matters Decline, renewal and hope in a divided city

Edited by **Brian Doucet**, Erasmus University College

This edited book examines why what happens in Detroit matters for other cities around the world. Bridging academic and non-academic voices, contributions from many of the leading scholars on Detroit are joined by some of the city's most influential writers, planners, artists and activists who have all contributed chapters drawing on their rich visions, ideas and practices.

### Localism and neighbourhood planning Power to the people?

Edited by **Sue Brownill**, Oxford Brookes University and **Quintin Bradley**, Leeds Beckett University

A critical analysis of the latest innovation in planning and localism, with a particular focus on neighbourhood planning. Bringing together empirical evidence from the UK and including international examples from the US, Australia and France, the book engages in broader debates on the purposes of planning and the devolution of power to localities.

### Directly elected mayors in urban governance

Impact and practice

Edited by **David Sweeting**, University of Bristol

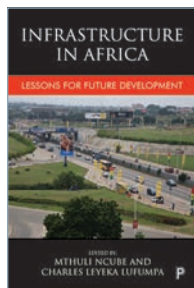

This book is about the practices, roles and impacts of directly elected mayors in the cities that they govern. The volume draws on recent, original research evidence, as interpreted by authors in several different countries, to locate the debates on directly elected mayors in context in Europe, the US, and Australasia.

### Development in Africa

Refocusing the lens after the Millennium Development Goals

Edited by **George Kararach**, African Development Bank, **Hany Besada**, University of Ottawa, and **Timothy M. Shaw**, Carleton and Ottawa Universities, Canada

Despite unprecedented economic growth in some African countries since 2000, Africa still faces major development challenges. In this important book contributors look beyond the Millennium Development Goals to highlight 12 major public policy conversations about the continent post-2015.

### Resilience in the post-welfare inner city

Voluntary sector geographies in London, Los Angeles and Sydney

**Geoffrey DeVerteuil**, Cardiff University

Geoffrey DeVerteuil compares the process of resilience across ten service hubs in three complex but different global inner-city regions – London, Los Angeles and Sydney – in response to the threat of gentrification-induced displacement. The book is the first to move beyond theoretical works on ‘resilience’ and offers a combined conceptual and empirical approach.

### Accommodating difference

Evaluating supported housing for vulnerable people

**David Clapham**, University of Reading

Does current housing for vulnerable older, disabled or homeless people effectively improve the well-being of those who live in them? This important book explores the impact of different forms of policy and practice on the lives of vulnerable people, arguing for a flexible policy approach that places people in control of their own lives.
